2016 - 17 Tifton HERD Program – Report 3

December 12, 2016

To: Tifton HERD Consignors and Other Interested Persons

FROM: 
Jacob Segers, Extension Animal Scientist – Beef Cattle

Enclosed is the 3rd report on the HERD heifers in Irwinville. The heifers were AI'd today, and we're hoping for a high conception rate. This report in the past has normally been collected in January. However, after more consideration and discussion with our reproductive specialist, the committee determined it was best for the overall health of the heifers, and the AI conception rates to allow the females to rest through the months of January and February. We recorded a weight this morning before they were AI'd. Please bear in mind that following a 17-day synchronization protocol, decreased gain is expected. As previously stated, you would typically receive this report a month from now after gains have had a chance to normalize. Overall, health continues to be good, and the heifers are doing well, so please do not be concerned with low rates of gain at this time. Cleanup bulls will be turned in on December 20th, and they will be removed on February 3, 2017. Pregnancy examination will be done on March 15 to determine which heifers are safe to the AI date and a report will follow at that time. If you have any questions, please feel free to contact me at the numbers listed above.

Other important dates:

February 8 Northeast Georgia Beef Cattle Short Course
February 9 Athens Focus on EPD's Bull Sale
February 28 Tifton Beef Cattle Short Course
March 1 Tifton Performance Tested Bull Sale
April 18 Tifton HERD Sale
May 30 Calhoun Beef Cattle Reproductive Management Workshop
May 31 Calhoun HERD Sale

The Evaluation Center is open for visitors during the week from 8 a.m. to 5 p.m. If you wish to visit the test station on the weekends, please contact Mike Keeler at 229/831-5416. Feel free to visit our website for early posting of reports and other useful information.
