**2016 - 17 Tifton HERD Program – Report 4**

March 16, 2017

To: Tifton HERD Consignors and Other Interested Persons

From:   
Jacob Segers, Extension Animal Scientist – Beef Cattle

Enclosed is the final report on the 2016-17 Tifton HERD Program. All pertinent data is included in this report. Again this year, there was a tremendous amount of effort on the part of the Extension agents on the Heifer Team. In addition, there was excellent cooperation from our agribusiness sponsors. Yesterday, 53.2 percent of the heifers were confirmed pregnant to an AI sire. The 182 heifers included in the final report were pasture exposed to calving ease Angus bulls from December 20 until February 3. **Note:** to view a larger print of the report, visit our website.

**Remember, the sale date is Tuesday, April 18. All heifers consigned to sell will be cataloged at this point. \*\*If we have your heifers listed on the attached report as “going home” or “to sell” and your plans have changed, please let Grace know by Monday, March 20 (office – 229/386-3683; or email – [gracen@uga.edu](mailto:gracen@uga.edu)). Also, if your heifers should sell as registered and we have them listed as commercial, please let us know of this change as well by March 21.**

On April 11, we will again pregnancy test the heifers. Any heifers not pregnant at that point will not be sale eligible.

**Sale Order:** There will be two divisions: AI-bred and Natural bred. Order will be determined by the date of conception. With ties for conception date, order will be decided by grade (as indicated by the average score of a grading committee). Further ties will be broken by birth date of the heifer.

There continues to be a high level of interest in the HERD program and sale. The consignors are to be congratulated for sending high-quality, healthy females for this year’s program. If you know of individuals that should receive catalogs, please email us with their names and addresses.

If your heifers are scheduled to return home at the end of the test period, please call Mike Keeler at 229/831-5416 at the Evaluation Center or on his cell at 229/326-3715 to determine a time to pick up your heifers; if you desire, you may pick them up the morning of the sale.

## 2016 - 17 Tifton HERD Consignors

<b>Averages: 182 Heifers</b>				10/14/15	741	1.2	849	5.9	806	999	150	1.62	258	1.58	1.93						
Ave. Disp. = The average of three disposition scores taken since the heifers were delivered to the test station; 1 is gentle and 5 bounces off equipment and will run over you.																					
HH = Hip Height.																					
Frame Score = Based on the hip height at the March 15 weighday.																					
Target Weight = Calculated from the estimated mature weight. For heifers to be cycling and able to conceive, they should weigh at least 65% of mature weight by the time they are 15 months of age.																					
ADG = Average Daily Gain; 93-day Gain & ADG refer to 12/12/16 and 3/15/17 weights; 163-day Gain & ADG refer to 10/03/16 and 3/15/17 weights.																					
WDA = Weight per Day of Age																					
3/15/17 Pregnancy Results: Safe = confirmed pregnant to the AI sire; PE'd = pasture exposed to cleanup sire and will be palpated again prior to sale day.
