17th Annual Calhoun HERD Program – Report 4

March 29, 2017

To: Consignors in the 2016 – 2017 Calhoun HERD Program & Other Interested Parties

From:  Jason Duggin, Extension Beef Specialist

The 137 HERD consignments were worked March 28 with blood samples, docility, weight, hip height, and grade captured. Blood pregnancy results yielded 60% conception for all cattle bred that day including home heifers and any unofficial cattle.

The heifers are doing very well! The body condition for the cattle is ideal and we are very pleased with how they are progressing. Performance numbers will be lower for this reporting period due to estrus activity in the groups.

We need to be notified by Wednesday, April 19, 2017, if you are not planning to sell your heifers so they will not be included in the sale catalog.

Sale Order: We anticipate that approximately 100 heifers will be sold this year. There will be two divisions: AI-bred and natural bred. Order will be determined by the date of conception. Conception date ties will be decided by grade (as indicated by the average score of a grading committee). Further ties will be broken by birth date of the heifer.

Beef Cattle Reproductive Workshop: Complete details along with registration will appear in the sale catalog. Please pre-register by Friday, May 26 so meals can be prepared in the correct amount. Dr. Justin Rhinehart, UT Beef Extension Specialist, has an extensive background and training in reproductive physiology, and he will be the keynote speaker.

If you would like to view the heifers in person or have questions, please feel free to call me at your convenience on my mobile number (706) 728-4354.

Thank you for supporting the Calhoun HERD Program!
